

As a **TIG-Welder (m/f/d)**

you will be responsible for the preparation and assembly of welded components in the aviation sector.

Your tasks include:

- Preparation and construction of welding assemblies in the aviation sector
- TIG welding of engine components
Material preparation, grinding and cleaning
- Checking and reviewing the work results according to test specifications or drawings

We are looking for a committed personality with the following profile:

- Training in a technical or mechanical profession, for example as an industrial mechanic (m/f/d), fitter (m/f/d) or in a comparable environment
- Several years of experience with the TIG welding process, preferably in the aviation industry. Completed and valid certification is desirable, but not mandatory.
- Good German language skills as well as team and communication skills
- Reliable, independent and structured working style

Your benefits at Binder:

We offer a responsible and holistic position in an innovative company with flat hierarchies and openness to new ideas, approaches and solutions. You will work in a motivated and professional team and have the long-term perspective to develop professionally and personally. We offer a performance-related salary and other benefits such as a company pension scheme, bicycle leasing and an in-house canteen.

Exactly yours? Apply now, stating your starting date and salary expectations!
