

As a **NDT material tester (m/f/d)**

you will support our QM team and carry out non-destructive tests for our aerospace components.

Your tasks include:

- Carrying out non-destructive tests
- Damage analysis and assessment as well as evaluation of test results
- Evaluation of measurement results, documentation and decision on usability
- Creation and validation of process and test instructions
- Implementation of internal training courses, e.g. for NDT trainees or training on the job

We are looking for a committed personality with the following profile:

- Successfully completed training with several years of professional experience in an industrial environment
- Qualification as NDT inspector level 1 or level 2 in the NDT process PT - according to EN 4179 or level 1 or level 2 in the NDT process PT - according to EN 9712
- Independent, structured and goal-oriented way of working as well as a high sense of quality and responsibility
- Confident written and spoken German and English skills
- Willingness to work shifts (early and late shifts)

Your benefits at Binder:

We offer a responsible and holistic position in an innovative company with flat hierarchies and openness to new ideas, approaches and solutions. You will work in a motivated and professional team and have the long-term perspective to develop professionally and personally. We offer a performance-related salary and other benefits such as a company pension scheme, bicycle leasing and an in-house canteen.

Exactly yours? Apply now, stating your starting date and salary expectations!
